

PROJECT2-SETUP

May 15, 2024

1 Project 2 - Installing required tools

Project 2 will require the following tools:

- [HipSTR](#)
- [TRTools](#)

Below shows how to install each of these and test that it is working on your datahub account.

2 HipSTR

```
# Download the GitHub repository
git clone https://github.com/HipSTR-Tool/HipSTR
cd HipSTR
```

```
# Compile
make
./HipSTR --help
```

```
# You can also add HipSTR to your path:
export PATH=$PATH:$HOME/bin
cp HipSTR ~/bin
```

3 TRTools

```
# Update pip
pip install --upgrade pip
```

```
# Install TRTools using pip
pip install trtools
```

```
# Add source files to the PATH
export PATH="$HOME/.local/bin:$PATH"
dumpSTR -h
```
